

GENERAL TELEGRAMS.

Turkey's Policy in the Afghan War Crisis.
 CONSTANTINOPLE, April 13.—Afghan news has greatly excited all classes. Two days ago war was looked upon as certain, and the idea prevailed among natives and foreigners that Russia might be expected to make a dash for the Bosphorus, and at any moment the British fleet might appear in the Dardanelles. Nothing much is talked about but the prospects of an Anglo-Turkish alliance. The Sultan hesitates to adopt any positively compromising attitude, being unwilling to fearlessly trust England without some proof of the reality of British friendship before incurring the enmity of Russia. Press agents, consequently, received instructions to spread the idea in foreign journals that Turkey will preserve neutrality in case of war. Nevertheless, your correspondent is assured in a strong quarter that Turkey will join England, should war occur, being compelled to do so by force of circumstances. General Komaroff's raid not being followed by an English declaration of war, the present opinion among foreign diplomats is that the matter may be arranged for the present with the usual Gladstone timidity. But all think that the struggle can only be deferred.

Turkish feeling generally is in favor of an alliance with England. The Turkish army and navy are longing for war. Indeed Turkish officers and men of either service are burning to repay Russia for the sufferings produced by the last struggle. Circassian officers are particularly excited at the prospect of another campaign on the Armenian frontier. There is talk about the receipt of Bakum, at which place Russia is very busy. A shipmaster, just arrived from there, reports the continual arrival of military stores and the construction of new redoubts. Speaking generally, the average Turkish idea is that without an alliance with England they are lost. Yet so rudely shaken has their faith been in England on account of the Egyptian business, they can not bring themselves to credit the British Government with any good intentions on their behalf.

Speculation Regarding the Sources of Grain Supply in Case of War.

LONDON, April 13.—The Bullionist says, with perhaps the wish as parent to the thought, the imminence of war will provoke a lively discussion as to the probable effect upon American trade. All American securities have advanced upon the assumption that grain shipments will immeasurably increase and that otherwise an important stimulus must be given in various directions. Before following the movement too readily, it would be well to inquire into the relations between the two countries. So far as wheat is concerned, which seems to form the main point on which the more hopeful feeling of the speculators is based, and it should be remembered that there are other important sources of supply, to say nothing of what can be drawn from Australia. The growth of wheat and corn in India has developed in a measure to make us almost careless of what America can do. The visible supply of grain in the United States is at the present time large, while its stocks in Great Britain are moderate. This, it may be said, favors the theory upon which American securities have latterly risen. But, as a set off, the quality of the American growth is not exactly what our requirements demand. It is principally wanted is red wheat, and it is perfectly well known that the bulk—say eight-tenths of the supply—consists of white. Under these circumstances, then, it is difficult to imagine that our needs across the Atlantic can very successfully compete with Indian and Australian producers, both of whom occupy unquestionably a position of advantage, in at least the point of quality. It is the universal impression among London financiers that both the banks and outside market may be considered as unusually well prepared for all contingencies implied by a state of war.

Seymour's Budget of News.

SEYMOUR, Ind., April 13.—Sheriff Hugh A. Burrell arrived here this morning with Henry England, whom he captured in Macon County, Illinois. England is the man who is charged with making a false affidavit before Clerk Frank Burrell in relation to a young lady's age for marriage. He gave Commissioner Humes as bondsman for \$300 and then jumped the ball bond. Mr. Humes deserves great credit for his untiring efforts to find out England's whereabouts. A party of vigilantes broke into the City Prison at a late hour last night and took out O. E. McCarthy, the man who burglarized the Business Printing Office Saturday night. It is understood they took him to the City Park, in the extreme eastern part of the city, pinioned him to a bush tree, turned his pants down and his shirt up, and administered fifty lashes on his bare back, opening his hide every lick, the blood flowing to his heels. The poor culprit is said to have begged piteously for his captors to spare him further punishment. They refused on the promise to leave Seymour and never return. This they did, and he left for the North. However much the good people of this city may regret such work as this, it seems as if nothing out this kind of medicine will be of any use and robbers away from here. The people feel compelled to resort to such a course for self protection, and it will have the desired effect too.

A leather mail sack thrown off the north bound train No. 7 Saturday night, was found a half mile south of the city yesterday. It was cut open and rifled of the contents. The affair was kept quiet yesterday in the hope that some light might be learned touching the mystery, but it is still unsolved.

Senator D. W. Voorhes, and Hon. Thomas Hanlon, of New Albany, were in the city yesterday.

A Bit of Sharp Practice.

NEW YORK, April 13.—There were some very curious manipulations of Mutual Union Telegraph stock to-day that have already become the subject of investigation by the Governor. When the Mutual Telegraph Company passed under the control of the Western Union, an agreement was made by which the stocks of the Mutual Union should be exchanged for those of a new company, known as the New York Union. Nearly all of the stock has been so exchanged for the latter company. It appears that some one inside disclosed the fact that a small amount of Mutual Union stock still remained unchanged, and upon such information a shrewd out-of-town speculator opened numerous accounts with brokerage houses in this city on small margins, and on Saturday telegraphed to each house to sell 100 shares of Mutual Union, that the stock had been forwarded by express and would be here in time to make delivery to-day. Unfortunately for the brokers who sold, the stock did not arrive to-day, and in their efforts to buy the stock for delivery, the price went up from 17 1/4 to

21. There were only 200 shares sold at the latter figure and 200 at 25, which was subsequently cancelled when President Simmons of the Stock Exchange, suspended all dealings in the stock pending an investigation. The committee on the stock list met at 3 o'clock, but after a session of nearly three hours adjourned without coming to any conclusion. A meeting of the Governing Committee will be held to-morrow. It is understood that 300 shares were sold on Saturday, and it is charged that fraud was attempted by the parties who sold them, and who, it is believed, controlled all the outstanding stock.

Jury Disagree—Found Paralyzed.

SPECIAL TO THE SENTINEL.
 CONNERSVILLE, Ind., April 13.—In November, 1882, Joseph M. Webster, a prominent farmer living about a mile south of this city, while attempting to cross the track of the White Water Railroad, in a wagon, was struck by a passenger train and injured for life, his horses being instantly killed and his wagon demolished. The damage suit growing out of it was taken away from this county by the defendants' change of venue, and was tried at Rushville last week. The jury was discharged Saturday upon disagreement, nine for plaintiff and three for defendant.

Isaac Kinsey, a wealthy farmer living near Milton, was found lying in the woods paralyzed a few days ago. He has since partially recovered.

Illinois Legislature.

SPRINGFIELD, Ill., April 13.—In the House this morning only a few members were present. Suitable joint resolutions were adopted relative to the death of Representative Shaw, and a committee, consisting of Senators Darnell and Snyder, and Representatives Langford, Gray and Humphrey, were appointed. The House then took a recess till 11:55 a. m.

No business was done in the Senate, except to concur in the joint resolution relative to the death of Representative Shaw. In joint assembly thirteen Senators and forty-eight Representatives answered the roll call. Morrison received 19 votes; Dr. Robbins, of Quincy, 2; John C. Black, 10. The session then adjourned.

Fell From a Moving Train.

SPECIAL TO THE SENTINEL.
 WASHINGTON, Ind., April 13.—Yesterday morning at 2 o'clock Niles Lavelle, a brother of Auditor J. C. Lavelle, of this county, died from the effects of an accidental fall from a moving train, which occurred on the 12th of March last. Shortly after the fall he was able to get around, but was unable to walk well. Last Monday he took violently ill, which within a week terminated fatally. A fracture of the skull was the cause. He will be interred to-morrow at St. Mary's, near Logansport, under the auspices of the Catholic Church, of which he was a member. His leaves a wife and a large number of relatives and friends to mourn his loss.

Four Shots in the Heart.

SAN ANTONIO, Tex., April 11.—A row occurred at Pearsall this morning between Alf Atlee, Deputy Sheriff Will Jacobs and Frank Rhodes, a special deputy, in which the two former shot the latter dead, firing twelve shots, eight of which took effect in the victim, four in the heart. Rhodes did not have an opportunity to draw his pistol. The difficulty originated through the arrest of two horse thieves by Rhodes. Atlee fired the first shot, which was a fatal one, and Jacobs shot him full of bullets after he had fallen. Rhodes was a young man about thirty-two years old, raised in San Antonio, of good parentage, and universally respected. Atlee and Jacobs rode out of town and hence were not arrested.

A Police Justice Responds to the Lord's Prayer to a Clergyman.

NEW YORK, April 12.—Rev. Edward D. Kelsor, of the Seventh Presbyterian Church, runs a roller-skating rink next door to his church. A boy in his employ yesterday charged Margaret Welsh, an eighteen-year-old miss, with having concealed a pair of skates under her skirts. The young woman was searched and although no skates were found she was locked up all night. Police Justice Gorman this morning discharged the girl and said to the clergyman: "As I understand the prayer it is, 'Lead us not into temptation.' I do not think roller-skating rinks carry out the sentiment of that prayer."

An Eccentric Bachelor Murdered.

INDEPENDENCE, Kas., April 12.—Hiram Foulks, an elderly and eccentric bachelor, of some property, who lived alone on a farm near this place, was murdered Friday night by some unknown person, who then stole a horse and escaped. The crime was not discovered until today, when Foulks' body was found in a well, and the premises untraced, except by an old watch which had been shot in the leg. Foulks' assailant had shot him in the head, thrown his body into the well and then ransacked the house. A bag was found concealed on Foulks' person containing \$1,700.

A Good Appetite

always accompanies good health, and an absence of appetite is an indication of something wrong. The loss of a rational desire for food is soon followed by a lack of strength, for when the supply of fuel is cut off, the fire burns low. At this season nearly every one needs something to revive and sharpen the appetite, which is lost in the debilitating effects of changing weather. If it is neglected the system gets into a low state, and is especially liable to severe attacks of disease. The universal testimony given by those who have used Hood's Sarsaparilla, as to its great merits in restoring and sharpening the appetite, in promoting healthy action of the digestive organs, and as a purifier of the blood, constitutes the strongest recommendation that can be urged for any medicine. Those who have never used Hood's Sarsaparilla should surely do so this season. It will certainly benefit you.

"During the spring and summer I was troubled with humors and a low appetite. I was advised to try Hood's Sarsaparilla, and did so with the best results. I have recommended it to a great many of my customers, to whom it has given entire satisfaction." E. R. NOWLAND, Druggist, Indianapolis, Ind.

Extradition Applied For.

TORONTO, Ont., April 13.—Application was made before Judge Boyd to-day for the extradition of C. E. Beebe, the absconding bookkeeper from Portland, Ore. An adjournment was taken to April 23, to allow the necessary papers from Oregon to be examined.

Frelinghuysen Slowly Sinking.

NEWARK, April 12.—Ex-Secretary Frelinghuysen has been a stupor nearly all day. At 3 o'clock this afternoon he was raised in bed and took a little nourishment. Since

then he has been in a continuous state of stupor, and it has been impossible to rouse him. At 10:30 to-night one of his attending physicians said Mr. Frelinghuysen was gradually sinking, and would likely die to-night. He may, however, last forty-eight hours.

Grand Master Powderly at Pittsburgh.
 PITTSBURGH, April 13.—T. V. Powderly, Grand Master Workman of the Knights of Labor, arrived here to-day and will remain for sometime. His mission is to awaken increased interest among the various trades represented in the organization, and with this end in view will hold special meetings of the different Assemblies. He also proposes to attempt a thorough organization of the female workers in Allegheny City, over 7,000 of whom are employed in the different branches of industry here. The result is looked forward to with great interest by members of the order.

Arrested for Robbing the Mails.

St. Louis, April 12.—F. M. Blackwell, a postal clerk on the Wabash Railroad, between here and Kansas City, was arrested at the Union Depot to-day for robbing the mails. Blackwell's operations have extended over a period of two years, and he has not only stolen letters, but all kinds of merchandise passing through the mails. A considerable amount of stolen goods was found in his room here. He made a full confession and was locked up.

Trade and Labor.

PITTSBURGH, April 13.—Shoenberger's iron mill, employing 500 men, resumed this morning after four months of idleness.

The glass makers at Libby Bros.' factory, at Shaysburg, Pa., who have been on a strike since December 6 last, are growing desperate and threaten to do bodily harm to the workers now working at the reduction of the factory being outside of the city limits, the firm have employed a large force of others to protect their workmen and prevent any disturbance.

Vernon News.

SPECIAL TO THE SENTINEL.
 VERNON, Ind., April 11.—James Jurzet was arrested to-day by the Sheriff, and in default of \$300 bail was committed to jail. He was charged with the larceny of a stack of hay.

John Partlow and Herr Maynard got into an altercation over a missing clevis, when Maynard struck Partlow's head with an axe, and, in warding off the blow, Partlow had his left hand almost severed from the arm.

Collision on the Elevated Road.

NEW YORK, April 13.—In a collision on the Third Avenue Elevated Railroad, this morning, two trains were wrecked, and a fireman named Charles McCarthy was badly injured.

The Mahdi's Troubles.

DONGOLA, April 11.—The Mahdi has gone to El Obied, leaving the Emir to govern Khartoum. The rebellion against the Mahdi is spreading.

In some recent experiments in feeding calves on skim milk, Professor Henry, of Wisconsin, fed each from eight to eleven quarts of skim milk mixed to blood heat, and given in three feeds, besides a little hay and oats (the latter fed whole), which they soon learn to eat. In twelve weeks they averaged the following gains per week: Heifer calf (Jersey) 10.1 pounds; bull calf (Jersey) 10.5 pounds; bull calf (grade Jersey) 12 pounds; heifer calf (Holstein) 11.2 pounds; bull calf (grade Jersey) 15.9 pounds; heifer calf (grade Holstein) 13.9 pounds. The gain, as may be noticed, was in some cases over two pounds per day, and the bull calves increased more than the females.

There is a great difference in the feed of cows in various milk tests, and the results are as often tests of the different kinds of feed and skill of the feeder as of the capacity of the cow. If all milk and butter tests were made on grasses fed their value to most cow buyers would be greater.

An errand boy in a Philadelphia fancy store has just been left \$500,000, but it is thought he will die early of consumption. There is nothing better for young children than the daily exposure than a spoonful or two of Dr. Bull's Cough Syrup.

BALL'S
 HEALTH PRESERVING
CORSETS
 THE ONLY CORSET MADE THAT CAN BE RETURNED BY THE PURCHASER AT ANY TIME IF NOT FOUND PERFECTLY SATISFACTORY.
 In every respect, and highly recommended by all dealers everywhere. Beware of worthless imitations. None genuine unless it has Ball's name on it.
 CHICAGO CORSET CO., Chicago, Ill.

GRATEFUL—COMFORTING.
EPPS' COCOA.
 BREAKFAST.

"By a thorough knowledge of the natural law which governs the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicious, health-giving beverage which may save us many 'heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Dr. J. C. R. Service, Glasgow.

Made simply with boiling water or milk. Sold only in half-pint bottles by the Grocers, labelled thus: JAMES EPPS & CO., Homoeopathic Chemists, London, England.

FOR SALE.

To Printers and Publishers.

We have for sale one nearly new "Stonepress" Newspaper Folding Machine. Will fold, paste and trim a sheet 35x50 inches, or smaller. Price, \$250. Address: SENTINEL COMPANY, Indianapolis, Ind.

THIS IS THE GENUINE!

SOLD ONLY IN BOTTLES WITH BUFF WRAPPERS. SEE THAT STRIP OVER CORK IS UNBROKEN.

Our trade-mark around every bottle. In sickness!

Every Drop is Worth Its Weight in Gold

Price 50 Cents.
